The fact of being a member or of having representative powers under Article 52 of Law no. 47 of 23 February 2006 and subsequent amendments shall be concurrent with the activities leading to the adoption of the decision on licence revocation. This provision shall not apply when, in the administrative appeal against the refusal to grant a licence following a revocation order, the member or director demonstrates that, by behaving diligently, he/she is not responsible for the decisions or activities of the company leading to the revocation of its licence;
- g) in the 24 months prior to the application for the licence, did not hold any licence revoked by the Congress of State;

Art. 7

(Part-time business activity)

1. With a view to promoting entrepreneurship of persons employed by third parties, it shall be possible to carry out a business activity on a part-time basis in accordance with the conditions set out in a delegated decree to be issued by 31 December 2014.

Art. 8

(Subjective requirements for legal persons to obtain a licence)

1. A licence may be granted to a legal person that:
 - a) is recorded in the Company Register in compliance with Law no. 47 of 23 February 2006 and subsequent amendments;
 - b) is not considered an unfit party under Article 1 of Law no. 47 of 23 February 2006 and subsequent amendments;
 - c) fulfils other requirements laid down in special laws.

Art. 9

(Objective requirements for licences registered in the name of natural persons and licences registered in the name of legal persons)

1. The subject of a licence shall be:
 - a) lawful;

- b) possible;
- c) specific;
- d) consistent and
- e) related to the actual activity to be performed.

2. Where the applicant is a legal person, the subject of the licence shall, partially or wholly, coincide with the corporate purpose and shall define the business activity only. The subject of the licence shall be described only by specifying the Ateco reference codes. The economic operator may perform the corporate purpose only partially, it being understood that the granting of licences is subject to the provisions of special laws.

3. With regard to paragraph 1, letter d) above, licences referring to a single class of Ateco codes shall be considered consistent by law. Such criterion shall also be extended to the assessment referred to in Article 2, paragraph 2. In the other cases, consistency shall be assessed by the Office of Industry, Handicraft and Trade on the basis of the business plan drafted by the economic operator.

4. Applicants for licences shall:

- a) have a place of business for their exclusive use, which complies with building regulations and is suitable for the activity to carry out. Applicants for a licence covering an activity that, given its nature, may be performed without a fixed place of business shall be exempted from the above obligation. In this latter case, the place of business to which communications shall be sent shall be the one specified in Article 24, paragraph 1 below. Applicants shall be the sole owners or the sole usufructuaries of the premises where the activity is performed, or they shall hold a lease or a property leasing agreement, or a gratuitous loan agreement, registered with the Registry Office. A gratuitous loan agreement shall be permitted only in case of individual licences and shall concern the licence holder's spouse or relative by consanguinity or affinity within the third degree. The lease or the property financial leasing agreement or the gratuitous loan agreement shall indicate the cadastral data, the floor, number and area covered by the premises, as well as an explicit statement by the lessor stating that the premises shall be exclusively used by the lessee.

For the purposes of this Law, the expression "place of business" shall refer to the place where the business activity is carried out, that is to say the place specified in the application for licence or for transfer of the place of business or for setting up of a secondary place of business. Therefore, the registered office referred to in Article 8 of Law no. 47/2006 and subsequent amendments may not coincide with the place of business of the same company. In case only the registered office is transferred, Law no. 47/2006 and subsequent amendments shall apply;

- b) have paid the licence issuance fees under Annex B;
- c) have been authorised in compliance with special laws and with respect to the kind of activity to be performed. As regards hygiene and safety requirements to start production, it shall be sufficient to submit a relevant application to the competent Department of the Social Security Institute, together with all necessary documents. The authorisation to be granted to start production shall be obtained within 180 days following the issuance of the licence. The entrepreneur, however, shall also be held responsible during the period in which the authorisation has not yet been granted to start production;
- d) hold any certificates, certificates of studies or certificates of course attendance to perform activities requiring a special training or professional expertise, as specifically requested in Annex A to this Law and in special laws. In case the licence is registered in the name of a natural person, the above mentioned professional requirements shall be fulfilled by the licence holder, while in the case of a legal person they shall be met by those performing the tasks which require the special training or professional expertise. Where a person with the skills mentioned above must be recruited, he/she shall be employed within 10 working days following the issuance of the licence.

5. In relation to the requirement referred to in letter a) of the preceding paragraph, a professional regularly enrolled on the Register of Engineers and Architects or on the Panel of Surveyors, who has applied to the Town Planning Office for a planning permission relating to the premises intended to be used as the place of business and whose project has been approved, may state, prior to the conclusion of the procedure for the granting of the certificate of building compliance, that the building works conducted in the premises comply with the last approved plan including any instructions given by the Civil Protection. On the basis of such statement, the Office

of Industry, Handicraft and Trade shall issue the licence. If statements are found to be false or misleading, Article 11, paragraph 5 shall apply.

6. In relation to letter c) in preceding paragraph 4, where the activity covered by a licence may be started gradually and progressively, the authorities that are responsible for the granting of the authorisations envisaged by special laws may authorise the activity requested also partially, so that the entrepreneur can immediately operate. Such authorisation shall be subject to specific conditions. Failure to fulfil the conditions mentioned above shall entail the suspension or revocation of the authorisation granted by the competent authority which shall notify the Office of Industry, Handicraft and Trade of the adopted measure. The Office of Industry, Handicraft and Trade shall, then, take the appropriate actions.

7. The Registry Office shall report to the Office of Industry, Handicraft and Trade the contracts which do not comply with the provisions referred to in paragraph 4, letter a) concerning leases, or property leasing agreements, or gratuitous loan agreements, or which do not indicate the cadastral data, the floor, number and area covered by the premises, as well as an explicit statement by the lessor stating that the premises shall be exclusively used by the lessee. After receiving the report, the Office of Industry, Handicraft and Trade shall give the economic operator 10 working days to deposit with the Registry Office a contract complying with this Law.

8. Ateco codes adopted for the purposes of this Law shall be indicated in the Services Charter referred to in Article 36.

Art. 10

(General procedure for the granting of a licence)

1. Licences shall be issued upon prior submission of a specific application to the Office of Industry, Handicraft and Trade.

2. The content and means of submission of applications, under this Law, shall be defined in the Services Charter referred to in Article 36 below.

3. Besides specifying the activity to be effectively carried out, applicants shall specify the main activity and ancillary activities, indicating the relevant class of Ateco codes. For the purposes of proper statistical coding, there shall be a single main activity.

4. Licences shall be granted upon receipt of the relevant application by the Office of Industry, Handicraft and Trade if the application complies with the Services Charter. Applicants shall be entitled to request that the licence become effective at a later date, which, however, shall not exceed 30 days following the application. The application shall be given an identification number.

Art. 11

(Monitoring of the actual fulfilment of requirements for the issuance of licences and relevant sanctions)

1. The Office of Industry, Handicraft and Trade and the other offices involved in the procedure for the issuance of the licence shall be obliged to check, within 180 days following the submission of the licence application, whether all requirements referred to in Articles 6, 8 and 9 are fulfilled. The time-limit of 180 days shall be reduced to 30 days if the activity covered by the licence concerns sectors that present particular risks to health and public safety, that is to say the production, sale or distribution of food and beverages, wholesale or production of chemicals, health and welfare and the sector of weapons. By means of a decision, the Congress of State may include other sectors following a formal and reasoned request by the Directorate of the Office of Industry, Handicraft and Trade.

2. Licences shall be revoked for one or more of the following reasons:

a) errors in the application that cannot be corrected;

b) failure to meet the requirements to obtain the licence under Articles 6, 8 and 9, without prejudice to Article 12 hereunder.

3. In the event of a revocation under the preceding paragraph, where non-compliance with the objective requirements referred to in paragraph 9 above results from the checks carried out after the issuance of a licence, an administrative pecuniary sanction of € 2,000.00 shall be applied to each of the following cases:

a) lack of a place of business for exclusive use, which complies with building regulations and is suitable for the activity to carry out;

- b) lack of a property deed, lease, property leasing agreement or gratuitous loan agreement registered with the Registry Office;
- c) failure to pay the licence issuance fees under Annex B;
- d) conduction of the activity without being granted the authorisations envisaged by special laws and with respect to the kind of activity performed;
- e) conduction of the activity without having submitted to the competent Department of the Social Security Institute the application concerning the hygiene and safety requirements to start production, together with the necessary documents;
- f) failure to hold any certificates, certificates of studies or certificates of course attendance to perform activities requiring special training or professional expertise, as specifically requested in Annex A to this Law and in special laws;
- g) for individual licences, being employed or working as a professional, except for the case referred to in Article 7.

4. Where the economic operator carries out his/her business in such a way as to pose a serious risk in terms of health and safety at work, following a report by the competent Department of the Social Security Institute, the Office of Industry, Handicraft and Trade shall suspend *ex officio* the licence until the operator is granted the authorisation relative to hygiene and safety requirements to start production. If the operator has not obtained the aforesaid authorisation after 180 days following the granting of the licence, the licence shall be revoked.

5. In addition to the sanctions provided for in the preceding paragraphs and in compliance with Article 24 of Law no. 159/2011, according to which anyone making false or misleading statements shall be punished under existing criminal laws and shall no longer enjoy any obtained benefits, the Office of Industry, Handicraft and Trade shall report to the Judicial Authority any false or misleading statements identified when checking the requirements for the issuance of a licence, which have made to obtain the licence in lieu of the notarised documents under Article 13 of Law no. 159/2011 and of the contracts under Article 12 of Law no. 159/2011. Where a false or misleading statement is made by a professional under paragraph 6 of preceding Article 9, the Office of Industry, Handicraft and Trade shall also report to the Professional Association or Panel of which the professional is member.

Art. 12

(Lack of specification and consistency of the subject of a licence)

1. Where a licence holder is notified that the subject of his/her licence lacks specification or consistency under Article 9, he/she shall be summoned by the Director of the Office of Industry, Handicraft and Trade within 5 working days following the notification in order to provide clarifications on the specification or consistency of said subject of the licence. If, after the meeting, the Office of Industry, Handicraft and Trade continues to state that the subject of the licence is irregular and the licence holder continues to stand against that position, a panel composed of the Director of the Office for Control and Supervision over Economic Activities, an official of the Department of Economy designated by the Director of the Department of Economy, the licence holder and the Director of the Office of Industry, Handicraft and Trade shall be convened to review the case. If, after the review, the Director of the Office for Control and Supervision over Economic Activities and the official of the Department of Economy designated by the Director of said Department confirm the irregularity, the licence shall be suspended *ex officio* and the holder thereof, within 30 working days of suspension, shall revise the subject of the licence to make it specific and consistent.

Art. 13

1. Foreign legal persons or non-resident natural persons intending to carry out an economic activity in the Republic of San Marino for a period exceeding 180 days shall apply for an ad-hoc authorisation to the Office of Industry, Handicraft and Trade and shall also comply with the same rules applying to San Marino economic operators.

2. No authorisation shall be granted for activities:
